

GEO 60 Hz

Automatic waste water collecting and lifting station
Estación automática de recogida y elevación de aguas sucias

GEO 40

GEO 230

GEO 500

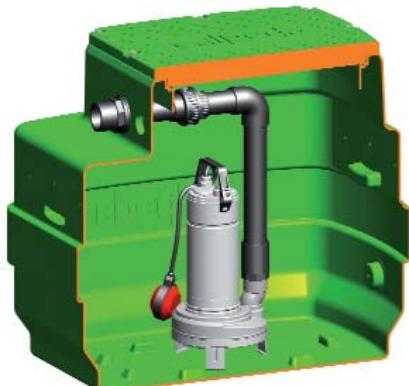

Installation examples

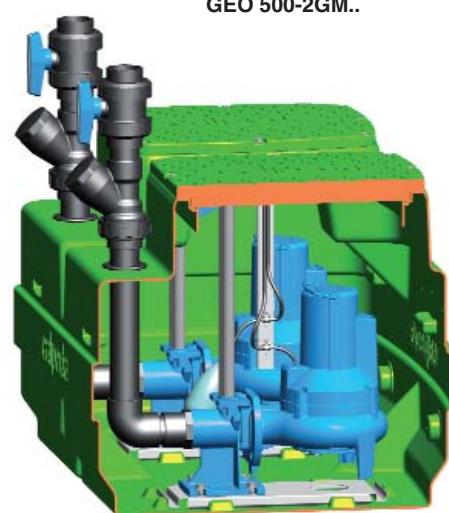

GEO 40-GXR

GEO 230-GX..

GEO 500-2GM..

Construction

High-density polyethylene tank, resistant to corrosion, with minimum overall dimensions.

- **GEO 40** single tank with 40 liters nominal capacity for the installation of a GXRM type.

- **GEO 230** single tank with 230 liters nominal capacity for the installation of an electropump type GM 10, GQ, GX or GM series.

- **GEO 500** double tank with 500 liters nominal capacity for the installation of two electropumps type GM 10, GQ, GX or GM series.

Pipe kit for electropump connection.

Two possible installation, at ground level or underground.

For underground installation, extention can be used (maximum two extention).

Easy pump access through a cover fixed with screws.

Applications

Automatic waste water collecting and lifting stations, to handle domestic, civil and industrial waste water.

For collecting and lifting clean waste water and rain water.

For flood drainage.

Ejecución

Depósito en polietileno de media densidad, resistente a la corrosión, de dimensiones reducidas.

GEO 40 capacidad depósito 40 litros, para la instalación de unaelectrobomba tipo GXRM.

GEO 230 capacidad depósito 230 litros, para la instalación de unaelectrobomba tipo GM 10, GX o GM.

GEO 500 capacidad depósito 500 litros, para la instalación de doselectrobombas tipo GM 10, GX o GM.

Kit tubería para la conexión de la electrobomba.Dos posibilidades de instalación, en suelo o enterrado.

Para la instalación enterrada, hay disponibles prolongaciones paralelas para llevar la tapa a nivel del suelo.

Fácil acceso a la bomba por medio de una gran tapa.

Aplicaciones

Estaciones de recogida y elevación automática de aguas sucias domésticas, civiles e industriales.

Para la recogida y bombeo de aguas claras de desecho, pluviales, y achiques en ambientes sujetos a inundaciones.
